Coding

General Assembly Web Development Immersive

July 2018-Oct 2018

- ♦ Web Development Immersive rollercoaster career accelerator.
An intensive deep dive into the wonderful world of Full-Stack Web Development
Built awesomely interactive single-page applications using React
Developed back-end web applications and application program interfaces (APIs) using Rails and PostgreSQL in MVC web dev frameworks
Wrote secure applications with deployment services through Heroku and AWS
Version control and team collaboration through GitHub in an agile development workflow

Projects

Project Portfolio

[GuideBox](#)

- ♦ Full-Stack Application Project [GuideBox](#) tech stack: MongoDB, Express, React, Node.js
Description: CapStone Project Inspired by how bad multi-network tv-guide web applications were I set out to create a video-uploader and tv-guide application.
The application allows users to upload videos and display them as tiles for all to see and play. Using React for the first time to build the front-end client was challenging but ultimately very rewarding and a great learning experience.

[Bag of Holding](#)

- ♦ Full-Stack Application Team Project [Bag of Holding](#) tech stack: Javascript, jQuery, MongoDB, Mongoose, Express, Heroku, mLab, AWS
Description: A group project focusing on version control with GitHub to recreate Dropbox. In three days.
The application allows users to store any type of file to a custom built remote server using Amazon S3.

[Magic: the Gathering](#)

- ♦ Full-Stack Application Project [Magic: the Gathering](#) tech stack: Javascript, Ruby on Rails, PostgreSQL, Heroku
Description: Inspired by the wonderful world of Magic: the Gathering I built a back-end custom API using PostgreSQL and Ruby on Rails and built a front-end client with Javascript. A major focus of the project was simple object oriented development and not allowing scope creep to error out the entire process.

Professional Experience

Richline Group Inc. Berkshire Hathaway, New York, NY April 2009-May 2018

Manager of Statistical Analysis – New York Analytics Group

July 2012-May 2018

- Managed a team of 22 Planning & Forecasting Analysts on a combined budget of over \$1.0B. Trained the team to use analytics to convert business intelligence that lead to an over 20% decrease in year over year inventory liability.
- Ran the internal Precious Metals Hedge on a rolling forward contract balance of over \$xxx.0M and was able to attain close to null losses or gains aligning with FAS 133 from prior years.
- Spearheaded a companywide initiative for simple automated and standardized reporting while leading the data team on the integration into an easily adaptable end-user interface.

Financial Analyst

April 2009-July 2012

- Financial Analysis – Sales Tracking versus Budgets, Gross Margin Analysis, MD&A, P&L's and EBIT tracking.

Citigroup, New York, NY

Financial Analyst

Jan 2008-Jan 2009

- Database administrator for the Citigroup Global Intercompany Chargeout system covering transactions for Citigroup global with 5 million records and \$2.0B processed monthly

Wachovia, Boston, MA

Financial Analyst

Dec 2005-Nov 2007

- Mutual Fund Middle and Front office positions involving three Broker Dealer Networks: National Broker Dealer, Wachovia Plus and Internal Sales Group.

Education

Trinity College, Hartford CT

Bachelor of Arts: Religion and Philosophy

- Major coursework & 5 independent studies of 400+pages
- Trinity College Wrestling Team (2000-2002), Trinity College Crew Team (2000-2004)
